ABOUT ME

Software Engineer and UBA Teaching Assistant with a strong foundation in computer science principles. Experienced in mobile and full-stack development with a focus on Fintech and educational systems.

ACADEMIC EXPERIENCE

Teaching Assistant

University of Buenos Aires (UBA)

Buenos Aires, Argentina

Aug 2018 – Present

- Plan and deliver technical lessons for key Engineering courses: **Algorithms and Programming I**, **Software Engineering I**, and **Introduction to Software Development**.
- Preparation and grading of exams and practical assignments for Engineering courses.
- Development of a web platform for automated delivery and grading of assignments.

EXPERIENCE

Mobile Engineer

Mendel

Buenos Aires, Argentina

Nov 2024 – Present

- Engineer core features for a high-traffic B2B Fintech application using **React Native** and **Java Spring Boot** for the BFF layer.
- **Managed the mobile implementation** of an **Online Booking Tool (OBT)**, architecting the mobile frontend and its integration with gateway services for major enterprise clients across Latin America.
- Improved development efficiency and app stability by implementing **automated builds (CI/CD)**, **OTA updates**, automated testing, and **Google Analytics** for data-driven product decisions.
- Managed the identification and resolution of critical **production issues**, ensuring high availability for corporate users.

Software Developer

Creative Coefficient

Buenos Aires, Argentina

Jun 2022 – Nov 2024

- Developed and maintained full-stack web and mobile applications using **TypeScript**, **React Native**, **React**, and **Node.js**.
- Collaborated with **US-based teams** in an English-only professional environment.
- Participated in the full Agile lifecycle, contributing to **sprint planning**, **task estimation**, and backlog refinement to ensure steady feature delivery.
- Partnered with cross-functional teams to translate business requirements into scalable technical solutions.

Software Developer

Tecnología y Desarrollo Informático

Buenos Aires, Argentina

Sept 2021 – Jun 2022

- Executed the full-stack migration of an institutional management system for a **top-tier university**, transitioning legacy Oracle Forms logic into a modern web paradigm.
- Optimized and maintained the **Oracle SQL** database, ensuring data consistency and performance throughout the architectural shift.
- Redesigned complex administrative modules serving **thousands of students**, delivering an intuitive and responsive experience that significantly reduced the technical friction of the legacy system.
